Summary Grants and Donations to Healthcare Organisations by Medicines Australia Member Companies

Company: Bayer Australia Ltd
Number of grants & donations made: 11
For the period: 1 November 2024 - 30 April 2025

Date (month/year) on which the grant or donation was made	Name of Healthcare Organisation	Description of the purpose of the grant or donation	Total monetary value of the grant or donation made in this reporting period (\$ AUD ex GST)
December 2024	Centre for Eye Research Australia (CERA) Research Fellowship	The funding would be used for one year to fund a Clinical Research Fellow and support the CTIRC Research Fellowship, resulting in an increased capacity to recruit patients into clinical trials whilst also providing more resources to support the conduct of research. The Research Fellow would attend Research Clinics, Medical Retina and Ocular Immunology Clinics, predominantly be involved in the injections required for AMD, RVO and DME clinical trials, in addition to being involved in other related research. Grant as a one-off lump-sum payment to be paid December 2024 with funds to only be used to pay salary costs related to research	\$45,000.00
December 2024	CUREOS	To support the training and education of two research fellows for the duration of one year each. This will be achieved by conducting a retrospective audit aimed to explore the quality use of medicines among a clinical ophthalmology network within Australia. This will involve: an in-depth review of patient prescription information, collection of clinic visit data from existing electronic medical records, as well as an analysis of ocular imaging scans. Grant as a one-off lump-sum payment to be paid December 2024 with funds to only be used to pay salary costs	\$200,000.00
January 2025	Sydney Eye Hospital Foundation	The funding would be used for one year to support two fellows in gaining experience and skills in research in medical retina conditions. The fellows participate in medical retina and research clinics gaining valuable experience in management of patients with medical retinal conditions and in-house and multicentre international retinal trials. Grant funds will not be used to support prescriber salary costs.	\$45,000.00
January 2025	Shine SA	Grant to support Shine SA in running IUD training clinics. SHINE SA already provides IUD training in South Australia and this educational grant will help us increase our capacity and train more doctors on our wait list. This will help improve access to IUDs for clients in South Australia. This grant will cover the pilot phase of the program from January to March 2025	\$4,000.00
January 2025	Alfred Health School of Translational Medicine	Grant to support the Alfred Health School of Translational Medicine in continuing a retrospective clinical audit to assess patients who have previously undergone PSMA PET imaging for prostate cancer primary staging and re-staging performed between October 2015 and December 2024. This project will involve collection and analysis of retrospective data from existing records of nearly 1000 patients, comprising of approximately 350 scans done for primary staging and 600 for re-staging.	\$35,000.00
February 2025	Sexual Health Victoria	Grant to support the updating of the IUD animated video which has been a highly successful resource to support people interested in learning more about a LARC method of contraception, or their chosen method of contraception using evidence-based clinical information. The update reflects changes in TGA approval for Mirena for contraception for 8 years. Therequested grant is for the cost of professional videography services to update the graphics and the professional voiceover directed by Dr Suzanne Pearson as Senior Medical Educator at Sexual Health Victoria.	\$1,500.00
February 2025	Sexual Health Victoria	Grant to support the Sexual Health Victoria 'Don't take it Lying Down. Period' Consumer and HCP awareness campaign raising awareness and promoting early medical intervention for menstrual health issues. The key objectives are to: Raise Awareness – Educate women and gender-diverse people across Victoria about the signs and symptoms of underlying menstrual conditions; Encourage Early Help-Seeking – Motivate individuals to seek timely medical support and appropriate treatment through SHV or their GP; Promote LARCs as a Management Option – Highlight long-acting reversible contraception (LARCs) as a potential option for symptom and pain management of menstrual conditions; Engage Healthcare Providers – Support GPs in initiating conversations about menstrual health and LARC options with their patients; Reach Diverse Audiences – Use targeted media strategies to ensure the campaign reaches priority communities, including women and gender-diverse individuals; Leverage Multi-Channel Media– Deliver key messages through a mix of digital, social, print, and out-of-home advertising for maximum impact.	\$50,000.00
March 2025	United Clinical	Grant to support Phase 1 of the National CRM_Drive Project designed to establish foundational measures that characterise and help bridge the gap between specialist knowledge and general practice in the detection and management of Chronic Kidney Disease and its associated cardiovascular and metabolic comorbidities across Australia. This phase aims to enhance the understanding of current challenges while laying the groundwork for implementing evidence-based, practical solutions. It includes a Foundational Review to understand the evidence-practice gap, Development of guidance and educational materials, Training of mentors	\$39,805.00
